

SNAG

The School Nutrition Action Group (SNAG) is a school based alliance that works to review and improve the school food service and adopt a truly whole school approach to food education and culture.

The focus of the group goes beyond school lunches to include practical food education for pupils and aims to involve the wider community.

Key areas for the group to consider are food, sustainability and healthy eating.

The group is formed by having a wide range of members from the school community, e.g school catering staff, pupils from different age groups, parents, teachers, senior leaders, lunchtime supervisors, etc.
