

### Science

Your Science project is to create a miniature garden/terrarium. Please discuss and help your child to remember the names of each plant in their project. Feel free to be creative—you may have a theme for your garden!

**Due to lack of space we would like the gardens no earlier than Monday 27th March.**

## We are Growing

This half-term we would like the children in Year One to complete three home learning tasks. The tasks may be completed in any order, at anytime before Monday 27th March

Upon completing each task, please sign on this page. Please ensure that all tasks are stuck in before the hand in date, any questions please do not hesitate to speak to the class teacher

### Talk Home Learning

With a grown-up talk about how we care for the environment. You might want to talk about **littering, pollution, recycling** etc. Perhaps you could research some of these issues online together or plan to attend a beach clean up. For more information visit <http://www.livingcoasts.org.uk/explore/blog/detail/why-do-a-beach-clean>

### Literacy

This half term we will be reading, re-telling and writing traditional and fairy tales. We have included a list of tales on the next page. You may wish to read some of these to or with your child.

Please encourage your child to write about their favourite tale. This can be one sentence, bullet points or a paragraph.
