

Lesson 2

Our focus for this lesson is...

Aspiration

Consistently strive to
do things to the best of
our ability.

Turn and talk: How will this look in our class?

Jan 4-18:41

Learning objective:

I can understand that we can group animals according to their features.

Jun 2-19:28

Our jobs

LO: - I can understand that we can group animals according to their features.

Cut out the pictures from the next slides and ask your child to group them however they want to.

Let's share our ideas.

Why do you think it might be helpful for scientists to group animals?

Feb 15-12:49

Animal grouping

Scientists use special categories to sort animals.

There are:

birds

reptiles

fish

mammals

amphibians

invertebrates

Feb 15-12:49

Animal grouping

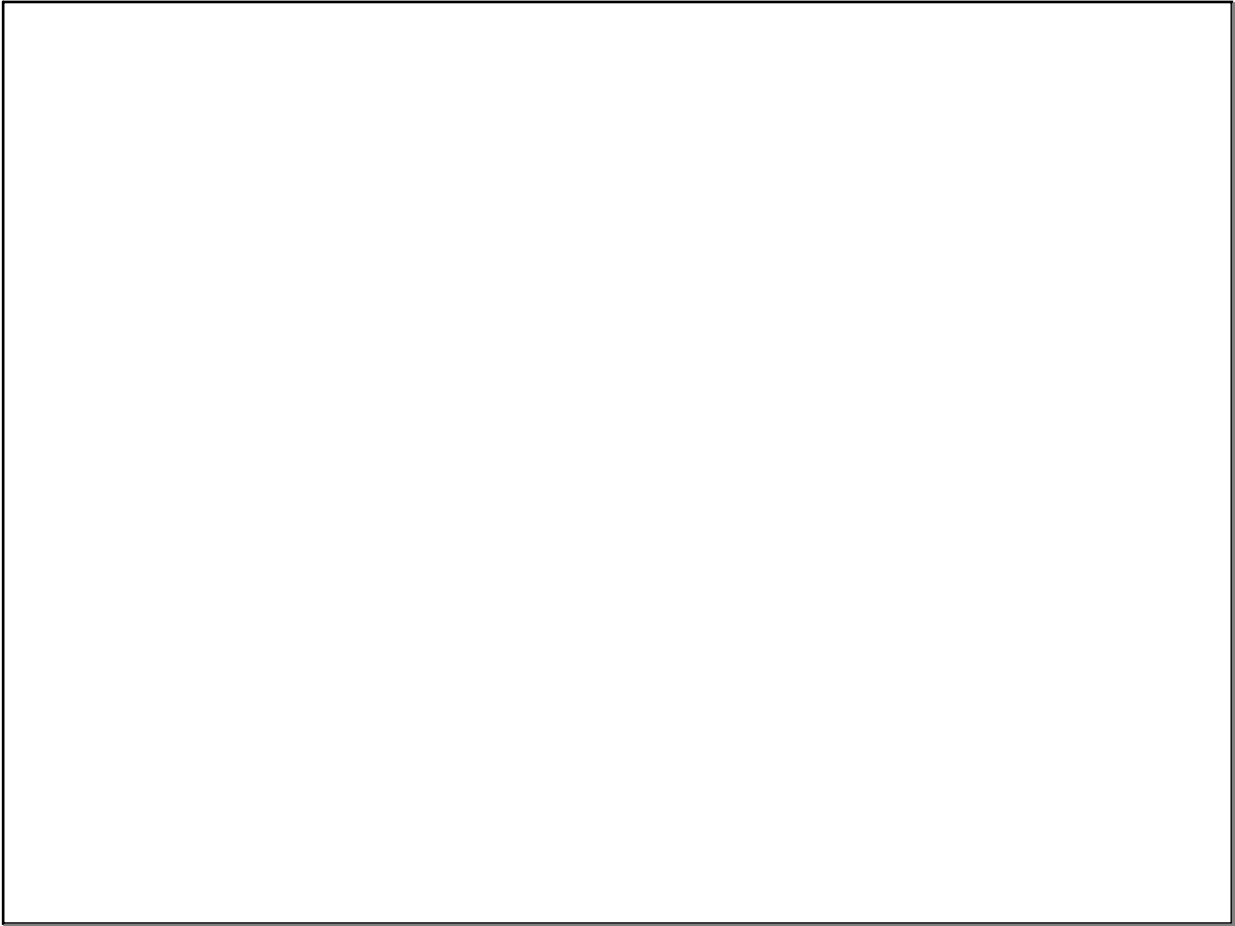

Today we are going to look at two groups:

Mammals

Amphibians
