

St Margaret's Academy Year 5/6 Newsletter of Celebration

Wow- what a different half term! I know it has been much busier in school and that all the teachers, teaching assistants, office, kitchen and site staff are busy making arrangements to see you wonderful year 6's after half term! So many of you have been keeping up with your learning at home and we love seeing what ideas you have come up with to keep busy-here are just a few!

This is Olivia in Willow class getting ready to toast marshmallows! Yum!

Charlotte in Willow class has been busy planting her own herbs and vegetables!

Juliet in willow class has started growing crystals at home!

James in Hazel class has been doing some metal detecting - did you find anything?

Kristen has been super helpful at home cleaning windows! He then had a water fight!

I'm sure everyone is looking forward to a week off and using our new freedom for daily exercise to get out for some lovely fresh air and sunshine! This week Mrs Kerswell has been up onto the moors to do a bit of climbing with her son - what sports activities have you been up to?

Wishing you all a fabulous, sunny and safe half term....and if you need to know the weather forecast you know who to ask!

Marvellous Meteorology-20/05/20

Today, the temperature has reached its predicted highest point. However, that does not mean that it will begin to descend. For the next few weeks, the temperature should be high, and the sun should not be obscured. Enjoy the next few days!
