

Week 5 - Maths lesson 1

This week we continue our work on multiplication and division. We will recap last week's learning about **arrays** and begin to **group** and **share** equally. We will also build on the work started in reception around **doubles**. This leads us into work finding **half** of an amount or an object.

Recap of previous learning.

How much is this?

- 1) There are ____ groups of ____ cookies.

- 2) One  fills    

How many red buckets will it take to fill

- 3) The train is ____ cubes long.

1.

Mo and Libby are making arrays.

Mo

Libby

Who has made a mistake? Explain why.

Week 5 - Maths lesson 1

2. Can you draw an **array** that has 3 rows  and 2 columns  ?

Top tip - ask your child to show you rows with their arms spread out wide and columns reaching tall to the sky (this helps them to remember which way they go).

3. Jenny makes an array but stops.
She has finished her first row.
Can you complete her array?

4. Now complete **Week 5 lesson 1 worksheet**.
