

# Foundation Stage News

April 29th 2022

## Our learning this week:

We have been buzzing and beeping with excitement this week whilst we have explored the theme of Robots. We have looked at the different things robots do in our lives to help us. We have noticed the different 2D and 3D shapes the robots are made from, designed and made our own 3D robots, programmed real Bee Bot robots, used our prepositional language to control our friend pretending to be a robot and written some super robot sentences.....time to switch off for the weekend!

Look at these great photos from our Number Robot Day

# Read Write Inc. home learning:

Please click on the links below to access teaching videos for the sounds your child has been learning in school this week so you can watch them together to revise at home:

- Red Words I, the, no <https://schools.ruthmiskin.com/training/view/JG6hVIAq/2RiJb3F>
- Word Time reading <https://schools.ruthmiskin.com/training/view/o5ngSulx/IVlg9Qta>
- Word Time Spelling: <https://schools.ruthmiskin.com/training/view/3mrBEEv6/YylEPVXg>

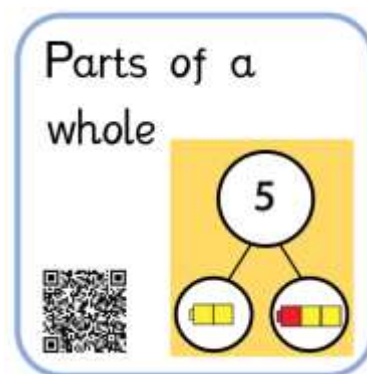

## A special visitor!

This term we are learning about plants and living creatures with a particular focus on Bees, Ladybirds, Caterpillars and Butterflies. We have invited a member of South West Animal Services to come to school with some insects, reptiles and small mammals to show the children on Wednesday 25<sup>th</sup> May. To cover the cost of this event and ensure we can go ahead we are asking if you could make a donation of £3.50. You will be able to make this payment via the School Gateway from Friday 6<sup>th</sup> May. We will be grateful to receive this by Wednesday 18<sup>th</sup> May.

## Reception learning prompts

Please look out for a new video learning prompt on the website which the children are using in school to remind them how to explore the parts of a whole number.

## Our learning next week:

Next week we will be reading the story of Jack and the Beanstalk and planting our own bean seeds. We will explore and learn from an information book to find out what a seed needs to help it grow. If we cross our fingers and toes, perhaps some magic growing may happen too!

To help your child prepare for this you could explore the plants growing outside and notice how they are changing after the winter. We will be using the following vocabulary so it could be useful to practise using these words at home too:

soil seed plant roots stem leaf flower light warmth

Have a lovely Bank Holiday weekend...see you Tuesday!
